** Price per person attending. VAT not included. Please indicate your VAT number for our invoice.*

General Terms and Conditions:

REACH ChemConsult GmbH is herein referred to as 'RCC'. The course will take place with a minimum of 4 participants and is limited to a maximum of 12 participants.

Bookings will be confirmed within 3 working days. Map and directions to place of seminar will be provided along with the final booking confirmation. RCC reserves the right to defer or to cancel any course if there are insufficient bookings or conditions arising beyond the control of RCC.

Payment Terms:

The booking fee for each participant must be paid by bank transfer at the latest 2 week prior the event. It is possible for you to change or cancel your booking in writing. Any cancellation received at least 7 work days prior the event will not incur any charges and your money will be refunded in full if you have already paid. Cancellations received within less than 7 working days prior the event will incur a penalty charge.

IUCLID 5 Training Courses

Our professional IUCLID5* training courses are designed to give you a comprehensive understanding, how to use IUCLID5 in your daily work processes correctly, allowing you and your team to compile i.e. REACH dossiers with confidence.

The course includes:

- Detailed advice on the effective use the latest version of IUCLID5
- complete end user applications
- step-by-step instructions to prepare dossiers in SIEFs

All our training courses can be customised and personalised to your specific requirements. **You will benefit from our experiences gained from the successful submission of registration dossiers.**

REACH Chemconsult GmbH offers you two different kinds of IUCLID 5 Training Courses:

- **(A) At our training location**
- **(B) In-house training:** If you prefer training tailor-made to your requirements we recommend in-house training. Our team will come to a training location specified by you.

- Introduction to IUCLID5 and REACH-IT
- General installation advice
- Creation of legal entity object (LEOX), import and export
- Creation of substance core data set, assigning a reference substance and legal entity
- Documentation of substance identification, analysis, classification, manufacture, use and exposure scenarios
- Creation of and proper use of templates
- Correct IUCLID data entry
 - Creation of IUCLID5 endpoint study records
 - Creation of (robust) study summaries (RSS)
 - Creation of end point summaries
- Creating REACH compliant dossiers for LEAD registrants and members of joint submission / PPORD
- All aspects of the technical completeness check (tool)
- Import/Export/print of single datasets, substance data sets, templates, dossiers
- Data input from view of REACH as well as from officials
- Technical completeness check, further tools such as query-, literature references, CSR tools

Every participant will create his/her own dossier.

The perfect training for you! Our tutorials and practical exercises are designed to help you to easily manage IUCLID 5 for the creation of REACH compliant dossiers.

Further we offer the following IUCLID 5 Services through our IT-Partner (on request):

IUCLID 5 - Installation Service

- for single and multi-user system (installation service on the phone is also possible)

IUCLID 5 - as managed Service

- Installation and maintenance of an IUCLID 5 server instance in our hosting facility. We use PostgreSQL database system in HA configuration for IUCLID 5. Your data is backed up on a daily basis. Access to the instance through VPN is available upon request.

All prices are net costs and do not include VAT.
